Professional Summary
Innovative Full-Stack Software Engineer with 8+ years of experience designing, developing, and deplo

Technical Skills
Programming Languages: Python, JavaScript, TypeScript, Go, SQL, Java
Frontend Frameworks: Vue.js, Nuxt.js, React, Next.js, Angular
Backend Frameworks: FastAPI, Django, Flask, Express.js, NestJS
Databases: PostgreSQL, MySQL, MongoDB, Redis, Supabase, Firebase
Cloud & DevOps: AWS (S3, Lambda, EC2, RDS, IAM), Google Cloud Platform, Docker, Kubernetes, GitHub A
AI/ML: TensorFlow, PyTorch, LangChain, Hugging Face Transformers, OpenAI API, RAG pipelines
Data Processing: Pandas, NumPy, Apache Spark, Airflow
Tools: Git, GitHub, VS Code, Jira, Figma, Postman

Work Experience

Senior Software Engineer | TechVision AI Inc. | San Francisco, CA
January 2021 · Present
- Led a team of 6 engineers building an AI-powered document processing platform serving 50,000+ user
- Architected a microservices backend using FastAPI and PostgreSQL, reducing API response times by 4
- Implemented RAG-based document Q&A system using LangChain and GPT-4, achieving 92% accuracy
- Built real-time data pipeline with Apache Kafka processing 1M+ events daily
- Mentored 3 junior engineers and conducted technical interviews for the engineering team
- Deployed production services on AWS using Terraform and GitHub Actions CI/CD

Full-Stack Developer | DataFlow Solutions | New York, NY
June 2018 · December 2020
- Developed customer-facing analytics dashboard using Vue.js and D3.js, increasing user engagement b
- Built RESTful APIs with Django REST Framework serving 100K+ daily active users
- Integrated Stripe payment processing and implemented subscription management system
- Designed and optimized PostgreSQL database schemas, improving query performance by 60%
- Collaborated with product and design teams to deliver features on bi-weekly sprint cycles

Software Engineer | WebCraft Studios | Austin, TX
August 2016 · May 2018
- Built responsive web applications using React and Node.js for enterprise clients
- Developed automated testing suites achieving 95% code coverage
- Implemented OAuth 2.0 authentication and role-based access control systems
- Contributed to open-source projects and maintained internal component libraries

Education

Master of Science in Computer Science
Stanford University, Stanford, CA
September 2014 · June 2016
GPA: 3.9/4.0

Specialization: Artificial Intelligence and Machine Learning

Bachelor of Science in Software Engineering
University of California, Berkeley, CA
September 2010 · June 2014
GPA: 3.7/4.0
Dean's List: 6 semesters

Certifications
- AWS Certified Solutions Architect · Associate (2023)
- Google Cloud Professional Data Engineer (2022)
- TensorFlow Developer Certificate (2021)
- Certified Kubernetes Administrator (CKA) (2020)

Languages
English (Native), Mandarin Chinese (Native), Spanish (Conversational)

Projects
- Open-Source RAG Framework: Created a Python library for building RAG pipelines with 2,500+ GitHub
- AI Resume Analyzer: Built an NLP tool that parses and scores resumes against job descriptions
